Executive Summary

The 2015-2016 Mission College Institutional Effectiveness Report provides the first annual comprehensive assessment of the College's progress in meeting key instructional and public service goals. The data will inform the College's strategic planning, budgeting and performance management. In addition, the Mission College Institutional Effectiveness Report is designed to increase transparency by bringing all major accountability reports together in one document, advance institutional quality and institutional improvement, and foster dialogue across the campus.

Driven by the Institutional Effectiveness Committee, the report includes plans that were identified as key indicators of institutional quality. Each plan included in the report has an executive summary and analysis to provide context when reading through the report, and where appropriate, an assessed level of achievement and a progress rating is included. The report has been presented to college participatory governance groups for vetting, and an update to the report will be released annually.

The reports included in the Institutional Effectiveness Report are:

- Strategic Plan Foci and Goals
- Institution-Set Standards
- Student Success Scorecard
- Institutional Learning Outcomes Assessment
- Institutional Effectiveness Partnership Initiative Framework of Indicators
- Mission College Transfers to Four-Year Institutions

Analysis

The institutional effectiveness report is included will be evaluated and updated annually. In addition, the report will be presented to the College's participatory governance groups, and publicly posted on the Mission College website.
