- Online course success rates in fall 2021 for students (in a combined group that included all ethnic groups except Asians and Whites) varied by instructor from 17% to 100%. About 50 out of 220 instructors teaching online in fall 2021 had course success rates at 50% or lower for a combined group that included all ethnic groups except Asians and Whites. While many of these classes were in math and English, classes across the curriculum were included.
